

DOORS

LIGHT DUTY ROLL-UP

2000 SERIES

The 2000 Series is the perfect door for light-duty applications that require frequent use. These quality, low-maintenance roll-up steel doors are ideal for warehouses, car washes, machine shops, auto body shops, and more. DBCI's commercial-grade steel curtains are designed to meet or exceed operational requirements, and the 16-gauge 12" drums are easy to retract and maintain.
